

As a school owner my expectation was high! I enjoyed and appreciated every session at Srikriti especially Mallika's "add-on" talks. She sets too high a standard for all of us to match. The support I got from Srikriti to complete the diploma is unforgettable!

Awe inspiring. To be surrounded by excellence all the time pushes you to excel every step of the way. Though there are times when it seemed an uphill task the support from faculty and the wonderful materials make it less daunting.

If you've enrolled yourself at Srikriti, give yourself a pat on the back. You've shown courage in recognising the need to continuously learn and picked the centre. They will lead you into a fascinating world of planning, teaching, assessing and evaluating, all that you will later practice in your class rooms with your learners. What I appreciate most is Srikriti's commitment to quality of education, learning, delivery, content and attitude.
